

# COLIN

Make your own  
**COLOUR IN**  
c u t - o u t  
**COLIN & VERNON!**

**SHEET**  
**1**

1. Colour in and cut out the pieces from the 2 sheets.  
(to strengthen the pieces, you can stick them onto bits of card cut to shape).

2. Bend the 2 body pieces into a cone shapes.

3. For both body pieces, stick the 2 side flaps under to form a secure cone.

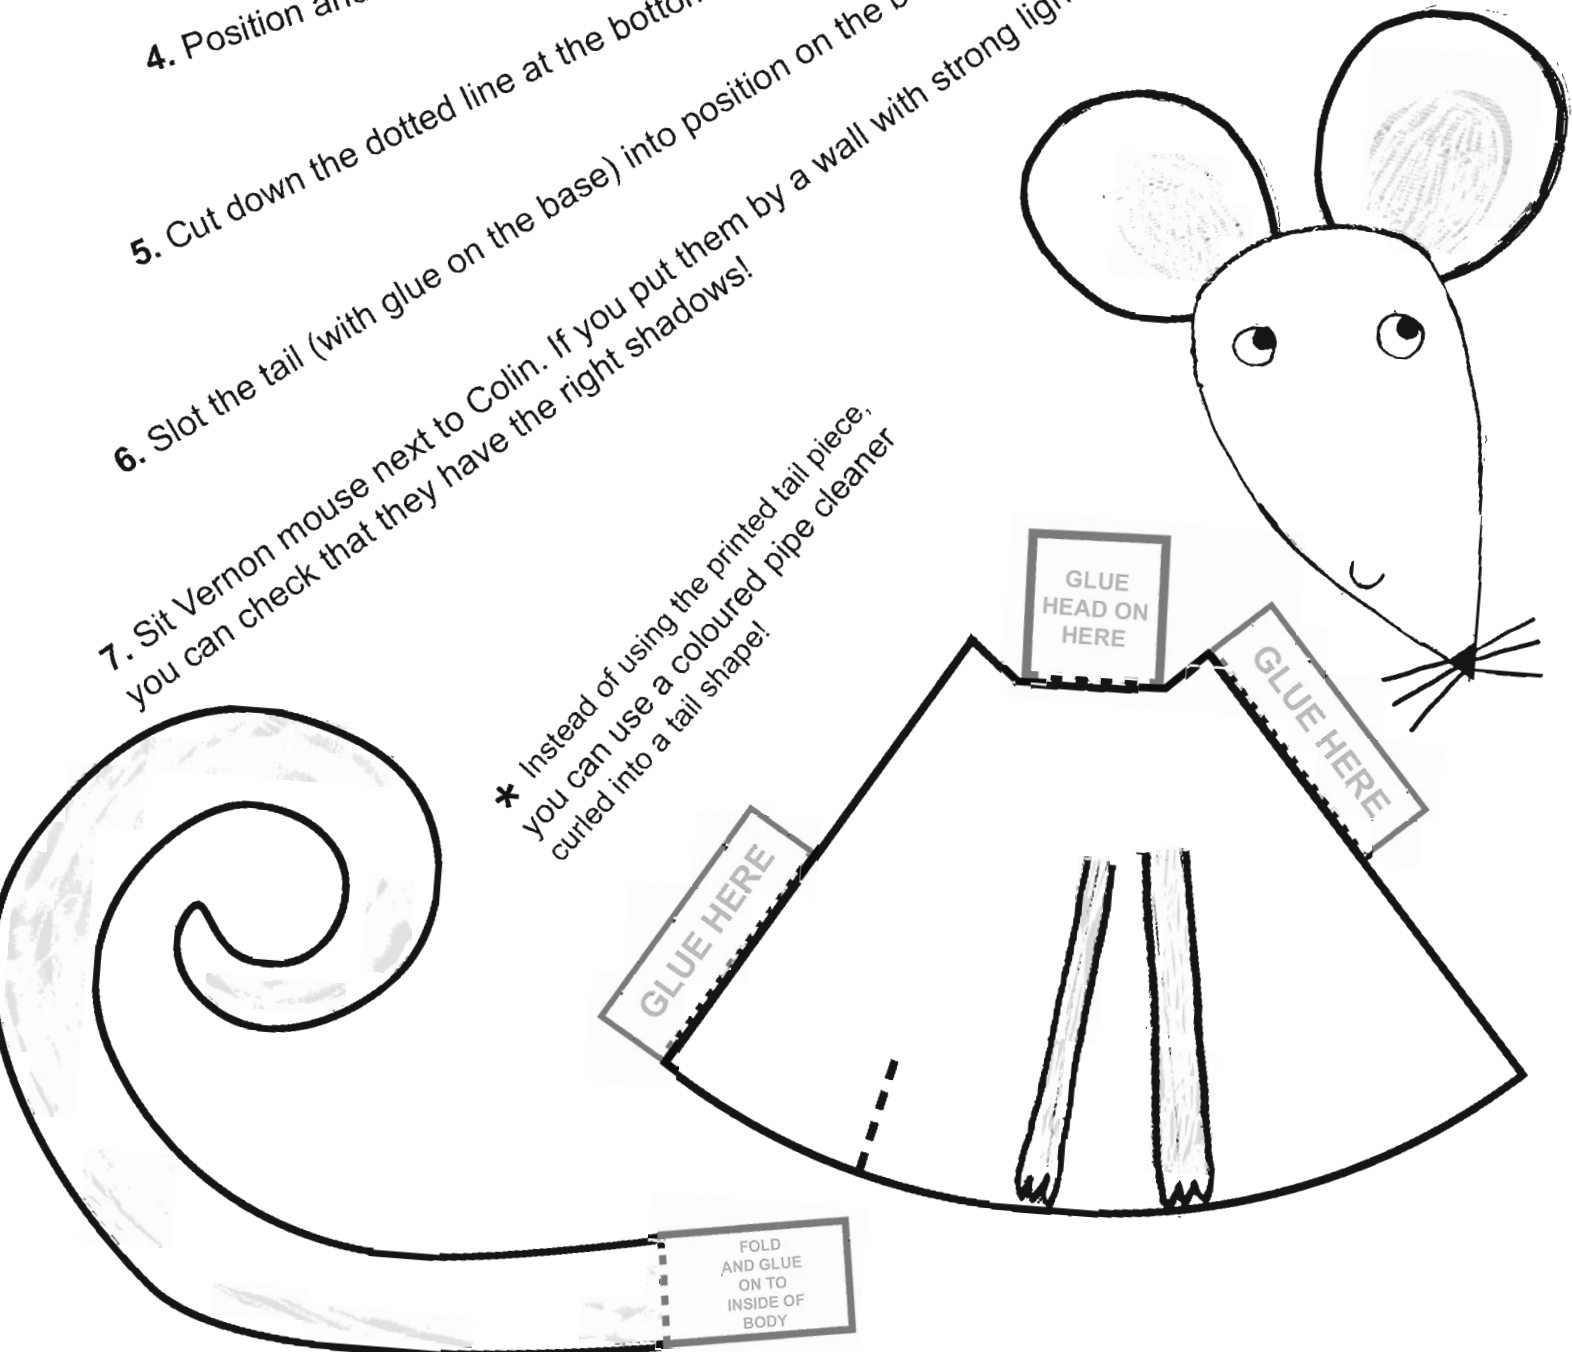

4. Position and stick the head on the neck flap.

5. Cut down the dotted line at the bottom of the cone body.

6. Slot the tail (with glue on the base) into position on the body cone.

7. Sit Vernon mouse next to Colin. If you put them by a wall with strong light in front, you can check that they have the right shadows!

\* Instead of using the printed tail piece, you can use a coloured pipe cleaner curled into a tail shape!
